Education

06/2024 – 09/2024
Calfornia, United states

Nano Degree/UDACITY
Udacity
I completed the Programming Fundamentals course on Udacity, finishing with a 100% test score. The course covered core programming concepts such as variables, loops, functions, and basic problem-solving using code. It strengthened my programming skills and gave me a solid foundation for software-related tasks and further development in IT.

2017 – 2020
Addis Abeba, Ethiopia

Diploma/IT
Selam Technical Collage
I completed my diploma in Information Technology at Selam Technical College. During my studies, I gained practical and theoretical knowledge in computer systems, networking, and software applications. The program helped me build a strong foundation in IT, preparing me for hands-on technical roles like working with ATM machines.

Professional Experience

2021 – 2025
Addis Abeba, Ethiopia

Atm Engineer
Moti Engineering
I worked as a technician specializing in ATM machines, handling both software installation and hardware maintenance. My duties included installing and configuring operating systems, updating banking software, and ensuring network security. I also assembled and repaired hardware components like card readers, cash dispensers, keypads, and screens. When issues arose, I diagnosed and fixed both software and mechanical problems to keep the machines running smoothly. I ensured each ATM was securely connected to the bank's network for real-time transactions. My role required strong technical skills, attention to detail, and a commitment to reliable, secure ATM performance in the field.

Verified Certificate Of Nanodegree Program Completion

Programming Fundamentals

Awarded to
